

150815 · evolution and simplification

1-30: original evolution 31-60: fullsr-150815-simplify 61-90: 150815-simplify-more

Full history · generations 1-90

Simplification · generations 30-90

One dot per generation: highest training score in the selected population; ties use fewer LOC.

Identical coordinates overlap (latest generation on top). Labels every 10 generations; shared labels mark the same point.

LOC excludes blank lines, comments, and docstrings. Thin lines connect generations in time order.
